

DESCRIPTION:

Aptica XT is the Inglesina "All terrain" System Quattro that follows the growth of the child from birth to 22 kg (4 years), from nap to stroll. Equipped with Darwin Infant Recline car seat, approved according to the ECE R129/03 regulation.

PAY OFF:

Adaptive Cruise.

S.P:

For off-limits walks. Thanks to the exclusive Adaptive Cruise System, Aptica XT dynamically adapts to all terrains and to your child's growth, always guaranteeing maximum well-being and an agile and fluid operation even in the most extreme conditions.

WHAT IT INCLUDES:

- (A) Open Up carrycot
- (B) Welcome Pad® + mattress
- (C) Stand-up
- (D) Chassis
- (E) Darwin Infant Recline car seat.
- (F) All Season stroller seat

(A) OPEN UP CARRYCOT

DESCRIPTION:

Pram with generous internal dimensions 79 x 37 cm for babies from zero to approx. 6 months.

MAIN BENEFITS:

- **Guarantees maximum well-being for the child:**
 - This carrycot is equipped with five ventilation windows, each with its own independent opening, allowing you to adjust the airflow inside and ensure the baby's temperature is properly regulated in any weather.
 - The windows also allow you to keep an eye on the baby from every angle, while encouraging their interaction with their surroundings
 - Thanks to its internal dimensions, it allows the widest possible use time, even in the winter months, when the child is wrapped in overalls or padded sleeping bags.
 - The backrest can be reclined in different positions to facilitate digestion after feeding.
 - The base has ventilation holes to ensure optimal airflow inside the carrycot, helping to prevent moisture buildup.
 - Hood in anti-UV (UPF 50+) treated fabric with removable sun visor for shielding against direct sunlight even when the sun is low on the horizon.
- **It is easy and practical to use:**
 - It is easy to transport thanks to its lightweight design and the practical handle
 - It easily detaches from the chassis or stand-up through a convenient central mechanism.
- **It enables comfortable and safe travel:**
 - The rigid polypropylene shell protects the baby from accidental knocks and bumps.
 - The carrycot is fitted with an indicator showing correct attachment to the chassis or stand-up support for greater safety.

ADDITIONAL BENEFITS:

- Inside in soft breathable jersey fabric, completely removable and washable by hand at 30°C.
- External lining in padded fabric, for improved heat insulation, completely removable and washable.
- Apron to protect your baby from the wind and cold.

Optional accessories for the CARRYCOT:

- **Mattress lining** - a bamboo fibre fitted sheet, designed specifically to fit the Welcome Pad®.
- **New-born winter muff** - accompanies you during the coldest months, ensuring your baby stays snug and warm while providing ideal protection in the harshest weather.
- **Rain cover** - protects your child against the rain, but also from excessive cold and snow.
- **Mosquito net** - prevents tiresome insects from disturbing your baby's sleep.

TECHNICAL INFORMATION:

Structure material:	polypropylene
External lining material:	polyester
Inner lining material:	jersey fabric
Weight:	4.9 kg
Internal dimensions:	79 x 37 x 22 cm (length x width x depth)

(A) WELCOME PAD® + MATTRESS

DESCRIPTION:

Welcome Pad® is a special ergonomic support designed in collaboration with a team of neonatal paediatricians to welcome your baby and accompany them during the first delicate months of life.

BENEFIT WELCOME PAD®:

- The shape of the Welcome Pad® is designed to give the baby the envelopment and protection they need, especially in the first 7-9 weeks of life when it is advisable to reproduce conditions that mimic intrauterine conditions as closely as possible.
 - Welcome Pad® promotes comfortable lying on the back and alignment of the spine; it helps the baby to breathe correctly.
 - The special shape of the disc where the babies rest their heads mitigates the risk of plagiocephaly, better known as Flathead Syndrome, and promotes the natural closure of the posterior fontanelle.
 - The adjustable anatomical cylinder gently accompanies the natural flexion of the baby's legs, promoting osteoskeletal muscle relaxation.
 - The special arch quilting on the underside provides the baby with experiences that are essential for gaining knowledge of themselves and their body structure.
 - Welcome Pad® controls the baby's temperature and perspiration, thanks to its highly breathable, hypoallergenic and antibacterial bamboo fibre lining and 3D mesh coupled with foam padding. The 3D mesh bottom and 40 ventilation holes of the mattress favour air circulation and prevent moisture build-up.
-

(B) STAND-UP

Support for carrycot. Transforms the carrycot into a real bed for the night to put next to the bed of the parents. Also useful for travels in the first few months.

BENEFITS:

- It allows you not to wake up your new-born on the way back from the walk, positioning the carrycot in a hygienic and safe way.
- The car seat can also be attached for short naps.
- Easy to close and stow away. Once folded up, it takes up very little space.

TECHNICAL INFORMATION:

Structure material:	aluminium-polypropylene
Weight:	1.9 kg
Dimensions when open:	56 x 53 x 70 cm (width x height x depth)
Dimensions when closed:	56 x 66.5 x 13 cm (width x height x depth)

(C) CHASSIS

MAIN BENEFITS:

- It easily tackles all terrain and overcomes all obstacles thanks to the large wheels (diameter 214 mm front and 305 mm rear) in rubber with a differentiated double layer inside, absorbing the vibrations transmitted to the child and to the handle.
- It guarantees optimal comfort for the child at every stage of growth, thanks to the independent suspension adjustment system on each wheel.

SYSTEM APTICA XT -- SYSTEM QUATTRO R129/03 RECLINE

- It opens and closes with just one hand.
- Once folded up, it remains upright on its own and the handle does not touch the ground.
- It is extremely smooth thanks to the double ball bearings on the four wheels (Abec 5 type).
- It adapts to the height of the parent thanks to the handle, which is height-adjustable in 4 positions.
- The handle is covered with a stylish leatherette material.
- It is equipped with a large basket with integrated pocket. The reflective material profile makes evening strolls safer.

TECHNICAL INFORMATION:

Structure material:	aluminium-polypropylene
Weight:	7.9 kg
Chassis dimensions when open:	55 x 102-115 x 82-97 cm (width x height x depth)
Chassis dimensions when closed:	55 x 88 x 35 cm (width x height x depth)

(D) DARWIN INFANT RECLINE CAR SEAT

DESCRIPTION:

Reclining car seat approved according to the ECE R129/03 regulation, suitable for children from 40 cm until the child is 75 cm tall (from birth to approx. 12 months). Compatible with the Darwin i-Size base and the Darwin 360° i-Size base. It can be installed in the car with or without the base. It can be positioned inside the car only rearward facing, on the rear seats or on the front seat only if the airbag has been disabled.

The innovative I.S.A. (Integrated Shock Absorber) technology absorbs and reduces the energy transmitted to the child in the event of a collision, thus ensuring maximum safety conditions even when supine.

MAIN BENEFITS:

- It guarantees maximum comfort for the child:
 - The reclining mechanism lowers the backrest and extends the leg support, allowing the back and legs to be aligned in an almost fully supine position.
 - The reduction cushion and the head hugger are covered with bamboo fibre and 3D mesh in the back, thus promoting optimal transpiration.
 - The seat structure has 149 holes, spread uniformly, to facilitate the passage of air.
 - The hood is fitted with an additional removable sun visor and is made with a fabric having UPF 50+ treatment for protection against UV rays.
- Allows you to travel in full safety:
 - The Integrated Energy Absorber technology dampens the energy transmitted to the child in the event of a collision.
 - The Side Head Protection technology provides maximum protection in the event of side impacts.
 - The combination with the Darwin i-Size and Darwin i-Size 360° bases remarkably decreases the risk of an incorrect installation inside the car.
- Easy and practical to use:
 - Thanks to the small footprint, the car seat is free to rotate on the base even when fully reclined, without touching the seats.
 - Equipped with a practical central release mechanism, located on the back of the backrest.
 - The inclination is adjusted via a control on the front of the seat, so that the child can be supervised while reclining.
 - The headrest can be height-adjusted via a central control and is integrated with the belt system to adapt to the growth of your child.
 - The child car seat and hood fabric lining are easily removable and can be hand washed at 30°C.

Optional accessories for the DARWIN INFANT RECLINE car seat:

- **Darwin i-Size base** - ensures a solid connection to the car seat, thanks to Isofix attachments. It makes for a smoother transition of the car seat from the chassis to the car and vice versa.
- **Darwin 360° base i-Size** - ensures a solid connection to the car seat, thanks to the Isofix attachments. In addition to allowing a quicker transfer of the seat from the chassis to the car and vice versa, it helps by rotating 360° to position the child effortlessly in the car.
- **New-born winter muff** - accompanies you during the coldest months, ensuring your baby stays snug and warm while providing ideal protection in the harshest weather.
- **Rain cover** - it protects your child against the rain, but also from excessive cold and snow.
- **Mosquito net** - prevents tiresome insects from disturbing your baby's sleep.
- **Summer cover** - during the warmest months of the year, it helps keep your baby cool.

TECHNICAL INFORMATION

Structure material:	polypropylene
Lining material:	bamboo fibre and polyester
Child car seat harness:	3-point
Position in the car:	Only rearward facing.
Weight:	5,75 kg
Internal width of backrest:	27 cm
Internal height of backrest:	51 cm
Internal width of seat:	24 cm
External seat dimensions:	42 x 60 x 64 cm (width x height x depth)
Type approval:	ECE R129/03

(E) STROLLER SEAT

DESCRIPTION:

All Season seat to compose the stroller of the Aptica XT system.

MAIN BENEFITS:

- The stroller comes with footmuff, full cover hood with UV treatment (UPF 50+) and baby bottle holder.
- It easily engages and disengages to/from the chassis in both directions.
- Sandwich folding system to take up minimal space.
- It guarantees maximum comfort for the child in all seasons:
 - The seat is equipped with the Comfort Cover, a comfortable padded cover, which completely covers the backrest, to better protect the child from cold.
 - In summer mode the seat, made of a double layer of breathable mesh, allows air to pass through, aiding the child's thermoregulation.
 - The double structural mesh of the backrest ensures the correct posture of the child by supporting their back.
 - The seat is very wide and padded (55x37 cm).
 - The backrest can be reclined in four positions and laid down to the "sleeping" position by means of a central control.
 - Equipped with footrest.
 - The padded shoulder straps and the crotch strap avoid the harness rubbing against your child's delicate skin.

ADDITIONAL BENEFITS:

- A mesh insert in the hood ensures proper air circulation around the stroller seat, to keep the area cool and ventilated. Excellent to see your child as you walk.
- The stroller and hood lining are fully removable and can be hand washed at 30°C.
- Equipped with special waterproof zips, to deal with all weather conditions.
- Equipped with heat-sealed slots to facilitate the passage of straps and for an even sportier look.

STROLLER accessories:

- **Baby Snug Pad** - a soft cotton head hugger that ensures new-borns travel in comfort.
- **Raincover** - protects your child against the rain, but also from wind and snow, and it is full-cover (covering the entire stroller).
- **Summer cover** - during the warmest months of the year, it helps keep your baby cool.
- **Stroller winter muff** - accompanies you during the coldest months, ensuring your baby stays snug and warm while providing ideal protection in the harshest weather.

TECHNICAL INFORMATION:

Structure material:	polypropylene
Lining material:	polyester
Width of backrest:	37 cm
Height of backrest:	55 cm
Width of stroller seat:	30 cm
Weight of stroller seat:	3.2 kg
