

### DESCRIPTION:

Light-weight travel stroller, approved up to 22 kg.

### PAY OFF:

Ready for boarding!

### MAIN BENEFITS:

- It can be carried anywhere thanks to its lightweight design (only 6.4 kg) and its compactness when folded.
- It ranges within the permitted size for hand baggage on an aircraft (\* if airlines have more restrictive size limits, the rear wheels can easily be removed to further reduce bulk).
- It requires just one hand to open, remaining upright on its own when folded, and is easy to carry thanks to the integrated shoulder strap
- It guarantees maximum comfort for the child, thanks to:
  - The very large internal dimensions for its category (30 x 21 x 48 cm), and the generously padded interior.
  - The possibility of opening the back hood and adjusting the ventilation inside the stroller according to the weather conditions
  - The extending hood (full cover) made of anti-UV treated (UPF 50+) fabric.
  - The padded shoulder straps of the belts and the crotch strap that avoid the harness rubbing against your child's delicate skin.

### ADDITIONAL BENEFITS:

- The backrest provides the ideal posture for the baby, whether lying flat or sitting up.
- The hood and lining are removable and can be hand washed at 30°C.
- Facilitates the positioning and moving of the child thanks to the articulated bumper bar.
- It ensures comfortable travel thanks to the front suspension.
- It makes evening walks safer thanks to the reflective material profile of the basket.
